

## **Virtual Learning Plan MVG Elementary Grades PK - 6**

Mountain View Gotebo Elementary Virtual Learning plan will consist of online instruction and practice. Online resources will be interactive and age appropriate. A virtual platform will be used for communicating and assisting in student learning. MVG Elementary's main platform for communication will be Google Classroom. Other communication resources may include but are not limited to: Facebook, text message, Remind, Zoom, email or phone calls, etc. Teachers may use some paper packets for early childhood students at their discretion. Teachers will be attempting to make contact at least once per day with each student and/or parent.

All families are expected to assist their children to check-in daily to the teacher's Google Classroom and/or check emails from all Teaching Staff. Students should expect that all assignments will be graded by staff in order to check for understanding and to determine if the concepts have been successfully learned. Teachers should engage students in activities, assignments, and tasks that are more than completing a worksheet or lengthy reading assignment. Parents and Students should realize that they can reach out to their teacher for assistance on work. Students should explore online resources or at-home activities regularly, as promoted by their teachers.

## **MVG Schools Grade 7-12 Virtual Learning Plan**

The Mountain View-Gotebo 7<sup>th</sup>-12<sup>th</sup> Grade students Virtual Learning plan will consist of online instruction and practice. Online resources will be interactive and age appropriate. A virtual platform will be used for communicating and assisting in student learning. MVG JH/HS's main platform for communication will be Google Classroom. Student assignments will be provided using Google Classroom, Zoom Conferences, or Google Meet/Hangout, textbooks, and various websites and apps as directed by the classroom teacher. Daily teacher instruction could include and is not limited to any of the following: Zoom/Google Meetings teaching and/or check-ins, worksheets, academic games, feedback on student work, video tutorials, online support and virtual help with assignments and activities.

Teachers will develop a weekly schedule for virtual class meeting times, assignments, and assessments for each subject. Parents and students should familiarize themselves with the schedule, attend classes, and complete assignments. Students who miss scheduled live class sessions should review the recorded versions to remain current with coursework. Students will use their school assigned email for all school activities and work. Students are expected to check their school email and their Google Classroom accounts daily. Students will keep their parents apprised of work assigned and other information provided by teachers. Students should expect that all identified assignments and assessments will be graded. Parents and Students should realize that they can reach out to their teacher for assistance on work. Teachers will be setting aside an additional non-instruction time to assist students and answer questions. Teachers should engage students in activities, assignments, and tasks that are more than completing a worksheet or lengthy reading assignment. Teachers should keep virtual attendance and evaluate student participation, work completion and progress.
